Re: Covid-19 Vaccinations

On July 15th Dr. David Lassner, President of the University of Hawaii System announced that the University will not require that students be fully vaccinated before attending classes on any of the UH campuses during the Fall 2021 semester. However, students in the Spring 2022 semester must be vaccinated to attend classes and to be on campus.

The University is still encouraging all students to get fully vaccinated sometime during the Fall 2021 semester.
